

Data Import Templates — Instructions

This folder contains 4 CSV files. Please fill them in with your real company data, following the rules below. Sample rows are already filled in as examples — replace them with your actual data (you can add as many rows as needed).

General Rules

1. **Do not rename, reorder, or delete columns.** Add new rows only.
2. **Leave a cell empty if it doesn't apply.** Do not write "NA", "N/A", "-", or "none".
3. **Dates** must be in `YYYY-MM-DD` format (e.g. `2026-05-15`).
4. **Date + time** must be in `YYYY-MM-DD HH:MM:SS` format, 24-hour clock (e.g. `2026-05-15 14:30:00`).
5. **True/false fields** must be exactly `true` or `false` (lowercase).
6. **Lists** (when one field can hold multiple values): separate values with commas and wrap the whole value in double quotes, e.g. `"Mumbai,Pune,Nashik"` . If there's only one value, no quotes are needed.
7. **Email addresses are used to link rows across files.** The same person/company must use the exact same email everywhere it appears across all 4 files (spelling, capitalization, etc. must match exactly).
8. **Enum / fixed-choice fields** must match one of the listed values exactly (case-sensitive, as written below).
9. Save files as `.csv` (UTF-8 encoding), keeping the same file names.

File 1: `01_team.csv` — Licensees & Associates

One row per person (licensee or associate).

Column	Description
<code>role</code>	LICENSEE or ASSOCIATE
<code>firstName</code>	Person's first name
<code>lastName</code>	Person's last name
<code>email</code>	Their email — must be unique, used to identify them in other files
<code>phone</code>	10-digit phone number
<code>cities</code>	Licensees only. City or cities they operate in. Multiple cities = comma-separated list in quotes, e.g. <code>"Mumbai,Pune,Nashik"</code> . Leave blank for associates.
<code>primaryCity</code>	Licensees only. Which one of the <code>cities</code> is their main/primary city. Leave blank for associates.
<code>licenseeEmail</code>	Associates only. The email of the licensee (from this same file) that this associate reports to. Leave blank for licensees.

File 2: 02_prospects_clients.csv — Prospects & Clients (companies)

One row per company (prospect or client).

Column	Description
companyName	Name of the company
city	City the company is located in
contactFirstName	First name of the main contact person at the company
contactLastName	Last name of the main contact person
designation	Job title of the contact person (e.g. HR Manager, Director)
email	Contact person's email — must be unique, used to identify this company in other files
phone	10-digit phone number for the contact
referredBy	How/who this prospect was referred by (e.g. "LinkedIn", "Referral", a person's name)
classificationType	Lead classification. One of: AAA, AA, A, B, C
programType	Program type. One of: LI (Large In-house), SI (Small In-house), ONE_TO_ONE, SHC (Showcase)
type	PROSPECT or CLIENT
associateEmail	Email of the associate (from File 1) who owns this account
licenseeEmails	Email(s) of the licensee(s) (from File 1) linked to this company. Multiple = comma-separated list in quotes
primaryLicenseeEmail	Which one of licenseeEmails is the primary licensee
entryDate	Date this prospect/client was first added (YYYY-MM-DD)
firstMeetingDate	Date of the first meeting (YYYY-MM-DD). Leave blank if no meeting has happened yet
lastMeetingDate	Date of the most recent meeting (YYYY-MM-DD). Leave blank if none

File 3: 03_groups.csv — Training Groups

One row per training group. Groups can only be linked to companies marked type = CLIENT in File 2 (not PROSPECT).

Column	Description
licenseeEmail	Email of the licensee (from File 1) this group runs under

facilitatorEmail	Email of the person (from File 1) facilitating the group
groupSize	Number of participants in the group (whole number)
groupType	One of: EPP, ELD, EPL, ECE, EML, ESL, LFW, AIE
deliveryType	One of: ONLINE, HYBRID, IN_PERSON
startDate	Group start date (YYYY-MM-DD)
ppmTfeDateSent	Date the PPM/TFE form was sent (YYYY-MM-DD). Leave blank if not applicable
clientEmails	Email(s) of the client company contact(s) (from File 2, where type = CLIENT) in this group. Multiple = comma-separated list in quotes

File 4: 04_meetings.csv — Meeting History

One row per meeting held with a prospect or client.

Column	Description
prospectEmail	Email of the company contact (from File 2) this meeting was with
prospectCompanyName	Company name (must match File 2, for readability/double-checking)
pointOfContact	Name of the person actually met with
description	Short note on what the meeting was about
meetingAt	Date and time of the meeting (YYYY-MM-DD HH:MM:SS, 24-hour clock)
